The Marmo Series is a refined expression of modern living—where clean minimalism meets the timeless beauty of stone. This collection draws its name and inspiration from "Marmo" – the Italian word for marble – which is reflected in the distinctive stone-textured accents found throughout the space.

The LUIS Series was born from a desire to blend the raw elegance of natural textures with the refined simplicity of modern design. This series unites two powerful elements: rich wood grain finishes and sleek matte black accents.

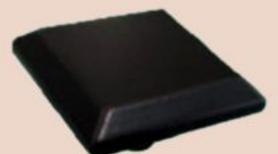

The warm wooden tones evoke a sense of comfort, tradition, and organic connection to nature, while the matte black brings contrast, structure, and a bold contemporary edge. This balance was inspired by observing modern city apartments—where industrial minimalism meets cozy, lived-in charm.
